

## **Definitions: Technology Delivery Modes**

**Technology Aware (TA)** A technology-aware course section uses the Internet and other technologies to augment a regularly scheduled, face-to-face course section by providing basic catalog, scheduling, syllabus, and other routine information via the Internet. No two-way technology-based interaction between faculty and students is facilitated.

**Technology Enhanced (TE)** A technology-enhanced course section further augments a regularly scheduled course section and adds opportunities for interaction between the faculty member and the students or among students; course related information, including handouts and assignments, may be published dynamically during the course, and students may submit and have assignments returned electronically. The primary and dominant mode of instruction is face-to-face.

**Technology Delivered (TD)** A technology-delivered course section is designed and scheduled to use technology as the exclusive or predominant mode of instruction and faculty-student interaction.
