# Community Partnerships

## EIU PRIDE

PRIDE works for the rights of the community to express their sexual and/or romantic orientation, as well as their gender identity freely and openly and to draw the community closer through education to denounce heterosexism, homophobia, transphobia, and other oppressions.

## Charleston PFLAG

PFLAG supports diversity and understanding in families and communities. We hope to provide a safe space for LGBTQ+ individuals and their families to navigate their relationships and understanding of identifying as a different gender and/or sexual identity.
