LETTER OF INTENT

For most students the Letter of Intent will be submitted through LiveText as part of their Introduction to Education course requirement. Students who transfer in this requirement or wish to submit the Letter of Intent through hard copy have that option. In that case, please attach a short document in which you describe your professional goals and aspirations and briefly describe your previous experiences with individuals the age you are planning to teach. (This is to be carefully written, done in paragraph format, using complete sentences, and typed to demonstrate professional written language skills).
