

Policy Number: 75

### STUDENT CONDUCT AND DISCIPLINE

The minimum standards of conduct expected of students enrolled in Eastern Illinois University are contained in the [Student Conduct Code](#). The Code recognizes the basic rights of students and clarifies the distinction between University conduct standards and those established by civil and criminal statutes. It also establishes the disciplinary system and hearing procedures for handling alleged infractions of these standards and provides for an appeal process.

Copies of the Code are distributed to students and may be obtained from the Vice President for Student Affairs.

Approved:  
President
