

**EISE Project Meeting Notes
Eastern Illinois University**

Team/Group: Student Process Team

Date: February 21, 2007

Time: 1:30pm

Place: Blair Hall Conference Room

Attendees: Linda Coffey, Amy Edwards, Brenda Major, Kimberlie Mooock, Vicki Phillips,
Rodney Ranes, Bonnie Wilson, Tammy Zuber

Note Author: Jennifer Porter

Agenda and discussion items

Critical Issues brought forward by Team

A question was raised in regard to transfer students and the possibility that they may not be able to register for upper-level courses because their hours are not in the Banner system. Currently Vicki and her team are working to get that information in the system. Articulation would be in the mainframe, but student hours should be in Banner. There was also a question about transfer students and their courses "In Progress". Vicki and Tammy are going to collaborate on a plan to alert departments on what they need to do if a solution is not found.

PAWS Access Page and Main Menu

There were some concerns in regard to how the PAWS page should look. The main concerns were that non-admitted students wouldn't be able to access information easily, and current students might find links to both the "old" PAWS and "new" PAWS a little confusing. Once the group has come up with a possible solution, Sue will take that recommendation to CFCG.

Update on Accounts Receivable

Linda indicated that they got a good load on Truth in Tuition codes. They are currently being checked in Test, and so far so good. They are still working on the conversion of detail codes.

Update on Catalog and DARS

No update at this time.

Update on Admissions (CollegeNet and Nolij)

Nolij was here last week, and the interface for undergrad applications is pretty much done at this point. Hopefully they should be able to roll applications into Banner within the next few weeks. At the present time they are having trouble getting in touch with College Net.

Update on Events Management

They are waiting to hear from Thom that everything is live in PROD. They also wanted to state that Thom and Michelle have been really great with all their help.

Update Location Management

They are expecting Eric in the next couple of weeks. The problem with Astra appears to have been fixed.

Update on Schedule

No update at this time

Update on Academic History and Registration

Everything that affects student level has been loaded into EIU Train. They have also been working with GPA's in Train. There are a few outstanding issues in regard to curriculum, and they are still unable to roll grades but hope to have solutions to those problems in the near future. The Registration subgroup is working on a class schedule guide, and has training for departments that use waitlists and priority coordinators scheduled for 3/12-13 and 3/19-3/20.

Update on Cohorts and Test Scores

The group is currently working on lists of student, terms, and cohort codes. They are hopeful to have this completed by the end of next week.

Update on Faculty Load

No update at this time.
