

Now that your SPA reports for NCATE are completed, we would like to know the following:

1. What are your program assessments?
2. What have you done to ensure that program assessment data are collected, analyzed, and feedback loops are established?
3. What does your analysis of the data tell you with regard to:
 - a. Content knowledge
 - b. Pedagogical and professional knowledge
 - c. Candidate impact on P-12 and student learning
4. Now that you have gotten your program results, do you plan to change any of your program assessments? Please provide details.

Your report should last only 10-15 minutes (no longer than 15 minutes) for each program. We request that you be concise as possible while still answering the questions. You may generate and distribute handouts to facilitate your report.
