SUBJECT: NEW OPTIONAL COURSE FOR CTE MAJORS

When the teacher education programs in the Lumpkin College of Business and Applied Sciences merged July 1, 2000, the faculty in the Department of Secondary Education and Foundations worked with us in the development of our equivalent to SED 2000. The one major difference in the two courses is that we have added one credit hour of content related to education to careers and work-based learning.

Since the development of the CTE 2000 for two credit hours, community colleges have been teaching a SED 2000 equivalent and EIU has been teaching SED 2000 on line. CTE has transfer students who take the SED equivalent and post bacs who prefer the on-line SED 2000 course. This means that they do not get the education to careers and work-based learning portion of CTE 2000 as well as the EIU/departmental procedures for approval to student teach; therefore, we have developed a one credit hour on-line course for those individuals who have taken the SED 2000 on-line course or community college equivalent. No student can take both CTE 2000 and the new CTE 2001.

I will be happy to discuss this course and curriculum with the Council on Teacher Education.
Career and Technical Education (B.S.)

Major
1. General Education.................................................................47-48 sem. hrs.
   Language Arts ...........................................................................9 sem. hrs.
   ENG 1001G, 1002G, SPC 1310G
   Must have a grade of C or better in each course.
   Humanities and Fine Arts .....................................................9 sem. hrs.
   Social and Behavioral Sciences ............................................9 sem. hrs.
   Must have a US Constitution Course.
   Scientific Awareness.............................................................9 sem. hrs.
