Pi Omega Pi had an action filled fall semester. The semester commenced by us working at Textbook Rental Service. All of the money we earned by distributing textbooks went into the POP bank account.

On September 20th, we hosted a CTE seminar which served as our local project. The purpose was to inform students what is required of CTE majors and to answer any questions. In October, we completed a service project where we helped out at a professional development seminar at Charleston High School.

Throughout the fall semester, we completed our national project which was “A New Business Teachers Tool Kit.” It can be found on our website.

The POP competition year began on January 1, 2005 and will end on December 31. During the competition year, the chapter completes local, regional, and national projects. Each of these projects is scored and ranked nationally against other chapters. Several other activities are held throughout the year, including service opportunities and fundraising efforts. All projects and activities we complete are awarded points. Help us achieve another top 10 finish!

Currently, we in the process of deciding what our local, regional, and national projects will be for the coming year.

We will be attending several professional development meetings including the Eastern Illinois Business Education Association’s (EIBEA) spring meeting.
