(3-0-3) ART 5920, Master of Arts in Art Colloquium,

Students receive an introduction to issues and discourses within the art world relevant to their graduate study and professional practice to strengthen their skills in scholarly and creative research, critical thinking, writing, and public speaking.

Prerequisites: Admission to the Master of Arts in Art degree program.

02. 14-04, ART Program Revision; Mary Simpson presented the proposal. Council approved unanimously with text correction; Effective date – Fall 2014

03. 14-05, FCS 4770, Family Budgeting and Debt Management, Revised course Proposal; Jacquelyn Frank presented the course. Council approved unanimously with corrections; Effective date – Fall 2014

(3-0-3) FCS 4770, Family Budgeting and Debt Management,

Students will develop skills to educate individuals and families on family budgeting and debt management. Effective educational techniques and practices will be applied.

Prerequisites: FCS 3300 (Personal and Family Finance)

04. 14-06, FCS 5400, Aging Policy in Action: Developments, Trends, and Application, New Course Proposal; Jacquelyn Frank presented the course. Council approved unanimously; Effective date – Fall

2014

(3-0-3) FCS 5400, Aging Policy in Action: Developments, Trends, and Application,

This course will examine the historical development, current application, and future trends of public policy as they relate to the well-being of aging individuals. Policy processes at the state and national levels will be holistically explored and analyzed so that strengths and weaknesses of current age-related policies and proposals for change can be critically evaluated.

05. 14-07, GEG 4910, GIS Programming, New Course Proposal; Barry Kronenfeld presented the course. Council approved unanimously with correction; Effective date – Summer 2014

(3-2-4) GEG 4910, GIS Programming,

An introduction to programming techniques used in spatial data management and analysis. This course is intended for students with some experience in geographic information systems (GIS) who want to learn how to extend GIS to perform custom analyses, to automate common GIS tasks, or just to learn how spatial data is structured and managed “under the hood”. Topics will include visual models and diagrams of GIS workflows, automation, web mapping, spatial data structures and spatial algorithms. No prior programming experience is required.

Prerequisites: GEG 3810/5810 (Geographic Information Systems I) or equivalent, or permission of instructor.

06. 14-08, EDF 5320, Foundations of Cross Cultural Education, New Course Proposal; Stephen Lucas presented the course. Council approved unanimously with correction; Effective date – Summer 2015

(3-1-3) EDF 5320, Foundations of Cross Cultural Education,

This course is designed to address the need for educators to better understand and work effectively with the changing global populations in public schools. The course will analyze the nature of “culture” and how people of various traditions perceive and interact with others differently. Emphasis will be placed on how this information relates to school practices, policies, and climate as well as to teaching and assessment of students. 10 hours of field experience will be required.

07. 14-09, EDP 5400, Assessment of the Bilingual Student, New Course Proposal; Becky Fogarty presented the course. Council approved unanimously with corrections; Effective date – Fall 2014

(3-1-3) EDP 5400, Assessment of the Bilingual Student,

The course focuses on the assessment of culturally and linguistically diverse students in K-12 classrooms. Theoretical and practical study of instruments and procedures used for testing bilingual students will be included. Formal and informal methods of evaluation, including issues of non-discriminatory testing, will be examined for the assessment of language skills and academic proficiency. This course also provides students with the knowledge required for the state of Illinois bilingual and ESL teaching approval/endorsement. This course will include 20 hours of clinical

experience to allow students hands-on practice assessing English Language Learners.

Prerequisites: ELE/EDF 5310 (Foundations of ESL/Bilingual Education); ELE/MLE 4890 (Culturally and Linguistically Diverse Students/English Language Learners: Instructional Methods)

08. 14-10, ELE/MLE 4855, Exploring ESL Students through Clinical Experiences, New Course Proposal; Kiran Padmaraju presented the course. Council approved unanimously; Effective date – Summer 2015

(Arr.-Arr.-1-3) ELE/MLE 4855, Exploring ESL Students through Clinical Experiences,

This course is part of a clinical experiences requirement for students who are either seeking a Graduate Certificate in English as a Second Language (ESL) Instruction or MEd. in Elementary Education with an emphasis in ESL Instruction. These clinical experiences will be in settings with linguistic diversity and will provide experiences with regard to programs designed to meet the needs of the growing population of English Language Learners (ELLs). Note: A minimum of 40 hours of clinical experiences required per credit hour.

09. 14-11, ESL Certificate Proposal for Elementary Education; Joy Russell presented the proposal. Council approved unanimously; Effective date – Fall 2014

10. 14-12, Elementary Education Program Revision; Linda Reven presented the proposal. Council approved unanimously; Effective date – Fall 2014

11. 14-13, HST 4830, Perspectives on Health and Humor, New Course Proposal; No presenter; Item will be pending for March 04 vote.

12. 14-14, TEC 5393, Mobile App Development, New Course Proposal; Rendong Bai presented the course. Council approved unanimously; Effective date – Summer 2014

(3-0-3) TEC 5393, Mobile App Development,

This course will prepare students to develop applications for mobile devices. Students will evaluate various constraints facing mobile application developers and study how to address these constraints with techniques in software design, user interface design, and implementation. In addition, students will develop important components of modern mobile computing, such as multimedia, Internet access, data distribution, and location awareness.
