CEC Advanced Content Standards Addressed In This Course (CEC AC)

Advanced Standard 2: Program Development & Organization
Special educators apply their knowledge of cognitive science, learning theory, and instructional technologies to improve instructional programs. They advocate for a
continuum of program options and services to ensure the appropriate instructional supports for individuals with exceptional learning needs. They help design and deliver, as appropriate to their role, ongoing results-oriented professional development designed to support the use of evidenced-based practices at all relevant organizational levels. They use their understanding of the effects of cultural, social, and economic diversity and variations of individual development to inform their development of programs and services for individuals with exceptional learning needs. Special educators continuously broaden and deepen their professional knowledge, and expand their expertise with instructional technologies, curriculum standards, effective teaching strategies, and assistive technologies to support access to learning. They use their deep understanding of how to coordinate educational standards to the needs of individuals with exceptional learning needs to help all individuals with exceptional learning needs to access challenging curriculum standards.

Advanced Standard 5: Professional Development and Ethical Practice
Special educators are guided by the professional ethics and practice standards. Special educators have responsibility for promoting the success of individuals with exceptional learning needs, their families, and colleagues. They create supportive environments that safeguard the legal rights of students and their families. They model and promote ethical and professional practice. Special educators plan, present, and evaluate professional development, as appropriate to their roles, based on models that apply adult learning theories and focus on effective practice at all organizational levels. Special educators model their own commitment to continuously improving their own professional practice by participating in professional development themselves.

Advanced Standard 6: Collaboration
Special educators prepared at the advanced level have a deep understanding of the centrality and importance of consultation and collaboration to the roles within special education and use this deep understanding to integrate services for individuals with exceptional learning needs. They also understand the significance of the role of collaboration for both internal and external stakeholders, and apply their skill to promote understanding, resolve conflicts, and build consensus among both internal and external stakeholders to provide services to individuals with exceptional learning needs and their families. They possess current knowledge of research on stages and models in both collaboration and consultation and ethical and legal issues related to consultation and collaboration. Moreover, special educators prepared at the advanced level have a deep understanding of the possible interactions of language, diversity, culture and religion with contextual factors and how to use collaboration and consultation to enhance opportunities for individuals with exceptional learning needs.

 COURSE REQUIREMENTS
1. Students will develop the theoretical concepts and knowledge base on which collaborative consultation is supported empirically.

2. Students will comprehend, analyze, synthesize, and evaluate the generic principles of collaborative consultation.

3. Students will apply the collaborative consultation model in conjunction with parents, other professionals, and/or the student to plan and provide direct and indirect services relative to individuals with disabilities or developmental needs.

4. **Readings** Each student will be responsible for the information contained in the readings for this course. For each assigned reading the student will complete a reading response reflection following APA guidelines. The purpose of the readings is to help with completing course activities and exam. (60 Points)

5. **In Class Activity Points** Class members will participate in activities that demonstrate the ability to use information regarding collaboration and consultation in making instructional decisions, planning individual programs, adapting and using instructional strategies and materials in accordance to the needs of the learner inclusive of racial, cultural, gender and ethnic differences. These points cannot be made up (50-70 Points)

6. **Exam** Each student will complete one exam that may include a combination of multiple choice, true-false, matching, short answer, and/or essay items. (100 Points)

7. **Simulation of Consultation Model** Each student, in pairs or teams will participate in an in-class simulation of a consultation or team situation that might occur in the public schools. Each simulation will be video-taped. There will be an opportunity for self-assessment as well as instructor feedback. Specific directions will be provided by the instructor. (50 Points)

Course/Department Policies
1. **Written Language Standards**
Written assignments are expected to follow *American Psychological Association (APA)* style, format, and guidelines. Nonlabeling language is expected in all written materials. Students in SPE 5800 will be expected to meet performance criteria associated with grammar, spelling, and sentence structure.

   a. **APA Style** : Knowledge of APA style is assumed at the graduate level. APA style should be used in all writing assignments. If you have not used APA style prior to taking this course, please familiarize yourself with the manual and ask questions prior to turning in assignments.
b. **Non-Labeling Language:** The Department of Special Education at EIU requires that all assignments be completed using non-labeling language. If labeling is utilized because it is part of a quote from a published source, please indicate that the information is a quote, utilizing correct APA form. Example:

1. Non-Labeling Language
   a. Students with learning disabilities
   b. Students identified as behavior disordered
   c. Teachers of students with mild mental impairments

2. **Labeling Language (DO NOT USE)**
   a. Learning Disabled Students
   b. BD Students
   c. Learning Disability Teachers

2. **Attendance:** Students are expected to attend all classes. If prevented by an acute illness or an emergency the student should contact the instructor in as timely a manner as is possible. When the student can anticipate the absence, the instructor should be contacted before the absence occurs. The instructor after due consideration to the reason for the absence may deny the student’s request to make up missed assignments or exams. **Students for whatever reason, are held responsible for the material covered during their absence.**

The Department of Special Education endorses the notion that attendance in classes is essential. The student is responsible for initiating all interaction with the instructor relative to absences and related assignments or exams.

3. **Assistance:** Each student is encouraged to contact the instructor for assistance with any problem and/or for general discussion. The instructor is interested in you. Available conference times are posted in the notebook in Room 1212, Special Education Office. If times listed are inconvenient, please call to arrange an alternate time.

4. **Policy on Late Assignments:** Assignments are due the class period of the day listed as the due date for the assignment. Any assignment turned in after this is considered late. If an absence is excused, the student will not be penalized points. Assignments that are late due to unexcused absences will be assessed a 10% penalty for each day they are late.

5. **Grading Scale**
A point scale is used. Grades are determined by the number of points earned. The following scale is used by the Department of Special Education faculty:
