

TAKES AIR TESTS

July 29, 1943

Mr. and Mrs. V. A. Jones received word Wednesday from their son Herschel that he had taken his aviation tests Tuesday and would soon learn his classification in the air corps. He will be assigned as cadet pilot, bombardier or navigator and special training for one of these will follow. "Hersh", shown above expects to be sent to a training base either in Texas or California for his final course.
