

**MAYOR DAVIS HAS
FINE GARDEN**

June 18, 1943

Mayor John D. Davis of Newton had his first raspberries from his garden, Tuesday. He had previously had asparagus, beets, cabbage, lettuce, onions, peas, potatoes, radishes, rhubarb and spinach, and in a few days expects to have plenty of green beans.

Mr. Davis and his mother, Mrs. George W. Davis, are now canning peas from the garden and expect to be able to put up all the vegetables they'll need during the next twelve months.
