Miss Wilma Jean Miller of Oblong, Route Two, received a letter, Tuesday, from her brother Private First Class David E. Miller, who is stationed somewhere in England. He adds: "I thought I would write you and let you know I am feeling fine and sure hope this finds you o. k. I can hardly write a thing; the censors are

"I thought I would write you and let you know I am feeling fine and sure hope this finds you o. k. I can hardly write a thing; the censors are to blame. I can only say I am well and then sign my name. Can't say when we sailed; can't mention the date; con't even tell of the meals that we ate; can't say where we're going; don't know where we'll land.

don't know where we'll land.

"I could not inform you if met by a band; can't speak of the weather; can't say there is rain; military secrets must secrets remain. Can't have a flashlight to guide me at night; can't smoke a cigarette except out of sight; can't keep a diary, for such is a sin; can't keep the envelopes your letters come in; can't say to folks, just what I could write. So I'll call this a letter and say good night.

"Sis, I know this isn't much, but it's the best I can do, so I will ring

off with love."

The Armored News, publication of the Thirteenth Armored division at Camp Bowie, Texas, commends Sergeant Melvin Weaver, son of Mr. and Mrs. Oscar Weaver of Newton, for good work he has done in aiding Technical Sergeant Walter Tilga, section chief of the Thirteenth's forward echelon radio maintenance.

It reports: "Twenty-Third Corps umpires noted in their report 'that the radio maintenance section of the 153rd Armored Signal Company (division CP), Technical Sergeant Tilga in charge, is to be commended upon the interest they have displayed in their work, and for developing from spare parts, time saving radio testing aids.'

aids.'
"Tilga insists that his assistants
Staff Sergeant Leslie S. Day of Modesto, California, and Sergeant Melvin Weaver of Newton, Illinois, are entitled to equal credit with him for the high standard of efficiency achieved by the radio maintenance section."

Mr. and Mrs. Lewis Worthey of Newton are in receipt of a letter from their son, Frank Worthey, stating that he had crossed the equator ten times and was now somewhere on the Pacific coast. He said he was well. Frank is a survivor of the torpedoing of the U.S.S. New Orleans in the seas near Guadalcanal, in which nearly 250 members of the crew lost their lives when 150 feet of the bow was blasted frm the ship. In spite of this blow, which came after the New Orleans had sent several Jap ships to the bottom, it managed to get to Australia and then to the

United States and is now back at sea again, after having been repaired

and made better than ever.
