

Billy Reed Injured In France

Billy Reed, one of the four sons of Sherman Reed of Newton, and Mrs. Maggie Reed, of Newman, Ill., who are serving in the armed forces, writes from an army hospital in France to say that he is recovering from wounds recently received.

"I got a nick on the leg," he said in his letter. "It broke one bone, but it is not too bad. I got it in the same leg that was hurt before, so I guess I will be a cripple for a while."

Billy has seen some of the hardest fighting on the French and German fronts.
