

## GUESS WHO

*June 14, '43*

No, Hortense, you're wrong. This is NOT a native Hula Girl. Instead, it is one of our own Newton boys who was caught by the camera in one of his moments of frivolity while he is temporarily away from the more solemn job of killing Japs.

Yes, we know who it is. At least we have the word of a very well-known and reliable Newton mother who claims to have the proper identity of this South Sea Beauty.

We are not going to divulge the information we have concerning the person who posed for the picture or the one who was kind enough to let us have it for use in this paper.

You try to figure out who it is. Write us or come in and tell us who you think the grass-skirted "damsel" is. We'll tell you whether you are right or wrong.

There is one hint we will give you: The "maiden" smoked cigars before he left Newton and at the time of entering the service was minus one of his front teeth.
